

B. KARISHMA

Entry-Level Geoinformatics Enthusiast

31/2 Main RD, Injikudi, Thiruvavur DT, 609405 | karishmabaskaran@gmail.com | +91 908085540

PROFESSIONAL SUMMARY

- Entry-level GIS Developer with a solid ArcGIS and GIS database management foundation, specializing in geospatial analysis and mapping support for diverse teams.
- Skilled in data digitization, editing, and georeferencing, committed to producing high-quality, accurate maps and experienced in integrating data from multiple sources to aid decision-making and open to learning property legal terminologies, including PLSS, to enhance expertise in land records and spatial data management in the upstream Oil & Gas sector.
- Experienced with tools like ArcGIS and QGIS, I am eager to expand my technical abilities further, particularly in SQL and advanced data processing techniques.

SKILLS

TECHNICAL SKILLS: ArcGIS, QGIS, Spatial data, Georeferencing, Digitization, GIS Database Management

INTERMEDIATE PROFICIENCY: Python, Google Earth, MS Excel, Tableau, and Power BI

SOFT SKILLS: Team Collaboration, Problem-Solving, Effective Communication, Contemporary Learner

INTERNSHIPS

Research Intern | Indian Institute of Remote Sensing | Dehradun

JAN 2024 – JUN 2024

Project Title: DEM ASSESSMENT AND DEM FUSION OF OPTICAL AND InSAR BASED DEMs

- Evaluated ICESat – 2 data for the Namakkal district
- Employed MS-Excel to delineate outlets for comprehensive data preparation
- Executed the fusion of five DEMs (Digital Elevation Models) using Multi-Linear Regression developed in Python, to enhance terrain representation.
- Performed accuracy assessments through statistical analysis to evaluate the reliability and precision of the fused DEMs
- Collaborated with a team to compile comprehensive reports, deliver presentations, and summarize methodologies and findings.

Summer Intern | The Gandhigram Rural Institute | Dindigul

JAN 2024 – JUN 2024

Project Title: Compositional and Chronological Assessment of the Tsiolkovskiy Crater using M³ and LROC datasets

- Analyzed the composition of the Tsiolkovskiy crater using Standard band Ratio
- Demarcated fresh and weathered surfaces using Optical Maturity.
- Delineated Olivine and Pyroxene mixtures using Integrated Band Depths.
- Mapped the concentrations of Iron and Titanium.
- Assessed the Chronology of the crater using the Crater Frequency Size Distribution technique.

EDUCATION

M. Tech Geoinformatics (2 Year Integrated)

CGPA: 8.27

Bharathidasan University, Trichy

AUG 2022 – JUN 2024

M. Sc Geology (5 Year Integrated)

CGPA: 7.91

Bharathidasan University, Trichy

JUN 2017 – JUN 2022

ADDITIONAL INFORMATION

Languages Known: Tamil, English

Certifications: Diploma in Computer Applications, INSA-SRF, Data Analytics professional in Power BI and Tableau

PROJECTS

- Compositional Characteristics of Jules Verne using M³ Datasets
- Assessment of Drinking and Irrigation Water Quality Index using Geospatial Techniques in Nanganchi Watershed, Tamil Nadu.

WORKSHOPS

- Attended a one-day National Workshop on Detailed Petrology: Focused on innovative modern techniques in thin section preparation and Petrographic studies.
- Attended an Online workshop on Space debris Management by Team 2020.
- Attended an Online workshop on Microgravity webinar by Team 2020.
- Earned a Certificate in LiDAR Data Processing and Applications: An online course covering LiDAR data processing techniques and applications.
