

SUMMARY

Highly motivated and recent graduate with a degree in GIS and Remote Sensing. Skilled in geospatial data analysis, mapping, and visualization using **ArcGIS**, **QGIS**, and **ERDAS** Imagine. Proficient in remote sensing techniques, including **image classification** and **change detection**. Strong problem-solving abilities and attention to detail for identifying patterns and trends in spatial data. Excellent communication skills to present complex information effectively. Seeking a challenging role as a GIS Analyst to apply academic knowledge and contribute to projects related to **environmental management**, **urban planning**, and **natural resource analysis**. Eager to learn, grow, and make a meaningful impact in the field of geospatial technologies.

EDUCATION

- **Master of Science (MSc) in GIS & Remote Sensing**
Amity Global Business School, NOIDA, Amity University (2023)
CGPA: 8.2
- **Bachelor of Arts (Hons. in Geography)**
Aditi Mahavidyalaya, Delhi, Delhi University (2021)
CGPA: 7.16
- **Senior Secondary (Class XII)**
Army Public School, Bhatinda, Punjab, CBSE (2018)
Percentage: 77.6%
- **Secondary (Class X)**
Army Public School, Agra, Uttar Pradesh, CBSE (2016)
CGPA: 7.4

INTERNSHIPS / EXPERIENCE

- **Regional Remote Sensing Centre (ISRO), Delhi (Jan 2023 – June 2023)**
 - **Project: Quantifying Crop Damage using Satellite-Based Composite Index**
 - Conducted crop classification in Aligarh using Sentinel-1 SAR data with the Random Forest algorithm and 300 ground truth points for accuracy assessment.
 - Performed data normalization using the Min-Max approach and weight generation through the entropy-based method. The final CHF value was derived from these calculated weights and metrics, enhancing the precision and reliability of the analysis.
 - Applied advanced data fusion techniques to derive precise crop-related insights.
 - Utilized matrix operations to analyze input indicators for comprehensive crop health assessment.
- **Indian Meteorological Department, Delhi (June 2022 – July 2022)**
 - **Project: Annual and Seasonal Variation in Particulate Matter and its Correlation with Meteorology in Delhi-NCR Region**
 - This work investigates the annual and seasonal fluctuations in particulate matter and its relationship with meteorological factors in the Delhi NCR region of India from 2017 to 2021. Data from 59 meteorological stations were utilized for the analysis.
 - Generated interpolation maps for the Delhi NCR region with high particulate matter pollution.
 - Developed 5-year interpolated maps illustrating PM2.5 and PM10 concentrations across the Delhi-NCR region. Conducted correlation analysis using the Karl Pearson method, and further enhanced data representation with graphs and charts for clarity and precision.
 - Conducted pollutant correlation analysis to ascertain complex interrelationships among various pollutants.
 - Presented graphical representations of 5-year pollution data to identify key factors contributing to elevated pollution concentrations.

- **Humara-Sankalp (NGO) (Aug 2022 - Dec 2022)**

- Worked in Delhi's Rohini sector to empower underprivileged children through education. Focused on identifying and nurturing unique talents to help them realize their potential. Conducted interactive workshops and provided personalized mentoring. Collaborated with local organizations to ensure access to educational resources.

CERTIFICATIONS / PUBLICATIONS

- Attended Workshop: "Introduction to Satellite System for Generating Atmospheric and Climatic Data Sets with ArcGIS Software"
- Certificate: "MATLAB Fundamentals"
- Online Course: "Geospatial Modelling for Watershed Management" (IIRS)
- Online Course: "Geospatial Technology for Hydrological Modelling" (IIRS)
- Completed: "Google Earth Engine for Remote Sensing & GIS"
- **Publications:** Quantifying Crop Damage using Satellite-Based Composite Index (Under Publication)

SKILLS

- **TECHNICAL SKILLS**

- ArcGIS Pro
- ArcGIS 10.9
- Esri online
- QGIS
- Erdas Imagine 2014
- Google Earth Engine
- SNAP
- MS Office
- Power BI

- **CORE SKILLS**

- Statistical Analysis,
- Data Manipulation & Visualization
- Risk Zone Analysis
- Satellite Data Analysis
- Project Management,
- Strong Communication & Interpersonal Skills
- Team Building & Independent Working Skills

EXTRACURRICULAR ACTIVITIES

- **TAJ Mahotsav 2024:** Volunteered in event management, coordinating logistics and operations of cultural events.
- **Dharitri:** Won 1st place in Geo-Fest "Open Mic" Competition at Delhi University.
- **Hindi Diwas:** Won 1st place in "Swarachit Kavita" competition at Delhi University.
- **Power Words:** Won 3rd place in International Slogan Writing Competition.
- Hosted Geo-Fest for consecutive years (2018-2019).
