OBJECTIVE

I have 1 year experience in the field of GIS. Desiring a good opportunity that will enable me to utilize my knowledge of cartography principles along with Remote Sensing techniques & Geographical Information Systems (GIS) toolsets like ArcMap/QGis/ ArcGis Pro etc.,to create effective visualizations from datasets.

EXPERIENCE

26/06/2023 -
Present

- **Senior ITES Executive (GIS)**
IMERIT TECHNOLOGY SERVICES PVT. LTD.
 - Applied **QGIS** classification techniques to **categorize** and **analyze** geospatial data, identifying patterns and trends to inform **decision-making**.
 - Created **high-precision** maps for autonomous vehicle navigation, ensuring accurate lane detection, road signs, and terrain modeling. Utilized large-scale datasets, LiDAR data, and 3D point clouds for object detection.
 - Organized, and analyzed data from various sources, identifying key trends and transforming the findings into strategic recommendations using data analysis tools for operational efficiency.

Jan/2023 -
June/2023

- **GIS Intern**
BIT MESRA

PROJECTS

- **A Geoinformatics based Interdependency between transportation and urbanization within East Burdwan District.**
