- mariyappans032@gmail.com
- Theni,Tamilnadu-625516.

## EDUCATION

2019-2023

KALAINAR KARUNANITHI  
INSTITUTE OF TECHNOLOGY

- B.E.AGRICULTURE  
ENGINEERING
- GPA:9.17/10

## TECHNICAL SKILLS

- Arc GIS
- QGIS
- Microstation
- Google Earth Pro
- Global Mapper
- PIX4D
- Adobe Photoshop
- Application Master
- AgiSoft

## PROGRAMMING LANGUAGES

- HTML
- CSS
- ArcGIS Java Script API
- Python

## SOFT SKILLS

- Project Management
- Analytical Thinking
- Teamwork
- Time Management
- Adaptability

## LANGUAGES

- Tamil
- English
- Malayalam
- Kannada

# MARIYAPPAN S

## GIS ANALYST

### PROFILE

GIS Engineer with expertise in spatial analysis, data management, and map production. Proficient in aerial triangulation, LiDAR feature classification, and vector data manipulation. Strong analytical thinker with excellent problem-solving skills. Effective communicator and team player, able to thrive in fast-paced environments.

### WORK EXPERIENCE

Crafty Solutions Private Limited

2023 - PRESENT

#### GIS

- Expertized in digitizing features to facilitate the development of topographic maps. Utilizing toolbars in ArcGIS and QGIS to ensure high precision and accuracy in spatial data representation.
- Employed advanced techniques such as spatial adjustments and georeferencing to accurately adjust vector data to real-world coordinates, enhancing spatial accuracy.
- Proficiently managed attribute tables conducted spatial analyses, enhancing data interpretation and decision-making processes.
- Conducted comprehensive analysis of groundwater flux variations various hydrological properties.

#### LIDAR

- Conducted advance classification from point cloud data, employing algorithms and methodologies to delineate features.
- Generated 2D maps, developed detailed 3D catenary models to enhance structural analysis and visualization.

#### ORTHO

- Conducted Aerial Triangulation to establish precise geometric relationships between aerial images.
- Handled 4-band imagery for ortho-rectification and geometric correction.
- Executed error correction to ensure data accuracy and alignment with project objectives and specifications.

### JOURNAL

LONG TERM SHORELINE AND LULC CHANGE COMPUTATIONAL ANALYSIS IN PART OF EAST COAST OF TAMILNADU USING GEOINFORMATION TOOLS,

Which was submitted to Journal of sedimentary environments in  
Springernature
