✉ naikbabajee@gmail.com

M.Tech Geo-Informatics (Pursuing)

PROFESSIONAL SUMMARY

Geo-Informatics professional with a strong academic foundation in GIS, Remote Sensing, and spatial analytics, complemented by over 2 years of teaching experience in Social Studies. Holds an M.Sc in Geography & Disaster Management and is currently pursuing an M.Tech in Geo-Informatics. Proficient in ArcGIS Pro, QGIS, and Google Earth Engine, with hands-on experience in spatial modelling, including NDVI, LST, flood susceptibility mapping, and urban environmental analysis. Experienced in satellite data processing (Landsat, Sentinel), field surveying, and producing high-quality geospatial outputs for research and planning. Adept at communicating complex concepts effectively and passionate about integrating geospatial technologies with education, research, and sustainable development.

EDUCATION

Degree	Period	Score
M.Tech in Geo-Informatics (Pursuing) University of Madras	2025–2027	
M.Sc in Geography & Disaster Management Tripura University	2022–2024	CGPA 7.9/10
B.A in Geography (Geography, History, Public Administration) Osmania University	2018–2021	CGPA 9.13/10

PROFESSIONAL EXPERIENCE

Social Studies Teacher

2021–2022 | 2024–2025 [Krishnaveni Talent School, Hyderabad](#)

- Delivered curriculum-based lessons in Geography, History, and Civics to Classes 6–8 using student-centered methods — maps, discussions, creative activities, and real-life examples drawn from extensive travel and geospatial concepts.
- Designed interactive lesson plans tailored to middle-school learners, incorporating GIS/remote-sensing insights to enhance conceptual understanding and real-world application.
- Created an inclusive, supportive classroom environment that promoted curiosity, participation, critical thinking, and holistic student growth.
- Maintained strong classroom management while adapting to diverse learning needs through an individualized approach.

RESEARCH & ACADEMIC PROJECTS

- Mapping and Modelling of Spatiotemporal Distribution of Vegetation Cover Change along the Principal Road Networks of Tripura through Normalized Difference Vegetation Index (NDVI)** – Advanced geospatial analysis using satellite data and spatial modeling techniques.

- **Assessing the Impacts of Road Infrastructure Development on Spatial, Socio-Economic Empowering of Tribal Community in Tripura** – Submitted in partial fulfilment of M.Sc; combined field surveys, socio-economic data, and GIS analysis.
- **Problems of Street Vendors and their Socio-Economic Conditions in Agartala** – Group research case study submitted to the Geography Department, Tripura University; focused on urban socio-economic issues with spatial mapping components.
- **Urban Sprawl Dynamics and Environmental Impacts in Mumbai through GIS and Remote Sensing**-Group research case study submitted to the Geography Department, University of Madras.

FIELD & TECHNICAL EXPERIENCE

- Conducted extensive field-based environmental and socio-economic surveys using GPS/DGPS, Total Station, Theodolite, Plane Table Surveying, and Prismatic Compass for accurate spatial data collection.
- Performed ground-truth verification to validate geospatial datasets (Landsat, Sentinel) and improve mapping accuracy.
- Collected, organized, and analysed environmental, community-level, and satellite datasets for academic research — including air/water quality mapping, watershed analysis, catchment delineation, and decision-support outputs.

SKILLS

GIS Software	ArcGIS Pro, QGIS, SAGA GIS, ENVI, Global Mapper, Google Earth Pro/Engine
Spatial Analysis	NDVI, LST, Flood Susceptibility, Urban Environmental Analysis, Air & Water Quality Mapping, Watershed & Catchment Delineation
Programming	Python (ArcPy), Google Earth Engine , JavaScript (Beginner)
Surveying	GPS/DGPS, Total Station, Theodolite, Plane Table, Prismatic Compass
Data & Reporting	MS Excel, Statistical Interpretation, Report Writing, Spatial Statistics, Publication-Quality Map Production

TEACHING & PROFESSIONAL

- Social Studies Curriculum Development & Lesson Planning • Classroom Management, Individualized Student Approach, Student Engagement • Communication, Simplifying Complex Concepts, Critical Thinking Development • Computer Proficiency

LANGUAGES

English (Read Write Speak) Lambadi (Speak)	Telugu (Read Write Speak) Bengali (Speak – Beginner level)	Hindi (Read Write Speak)
