PROFILE SUMMARY

Dedicated and skilled Web Developer with 3 years of experience and a solid background in creating dynamic and user-friendly interfaces. Currently serving as a Software Analyst at Infosys, Chennai, specializing in E-Commerce B2B Quotation Management and B2B E-Mall Wizard Page development using React.js, JavaScript, TypeScript, and other technologies. Proven expertise in enhancing user satisfaction through innovative UI/UX design and seamless integration of frontend components with backend logic. Adept at collaborating with cross-functional teams in Agile Scrum environments to deliver high-quality, iterative solutions.

PROFESSIONAL EXPERIENCE

Infosys, Chennai

Software Analyst

Dec 2022 – Present

E-Commerce B2B Quotation Management (React.js, JavaScript, jQuery, HTML, CSS)

- Developed a dynamic and responsive user interface, enabling B2B clients to seamlessly generate, review, and manage quotations with ease using React.js.
- Integrated JavaScript and jQuery for efficient manipulation of the DOM and seamless interactions within the quotation management interface.
- Collaborated closely with backend developers to integrate frontend components with server-side logic, ensuring accurate and up-to-date quotation data.
- Integrated API calls for data updates, ensuring accurate product information and pricing for users during the wizard process.
- Received acclaim for the user-friendly interface and heightened functionalities, significantly enhancing client satisfaction.
- Contributed to the project in an Agile Scrum environment, ensuring iterative and collaborative development.

B2B E-Mall Wizard Page (React.js, TypeScript, Storybook, HTML, SASS)

- Designed and implemented wizard-style navigation, providing a guided and intuitive user journey for B2B customers through the E-Mall platform utilizing React.js and TypeScript to create a dynamic and user-friendly interface for seamless B2B transactions.
- Developed new React components in React Storybook to facilitate component-driven development, allowing for isolated testing and streamlined collaboration across the team.
- Integrated API calls for data updates, ensuring accurate product information and pricing for users during the wizard process.
- Collaborated closely with UX/UI designers to translate design concepts into interactive and visually appealing frontend components.
- Applied responsive design principles to guarantee a consistent user experience across desktop and mobile devices.
- Contributed to the project in an Agile Scrum environment, ensuring iterative and collaborative development.

React Developer (Oct 2020 – Nov 2022)**Logistic Admin Dashboard** (React.js, JavaScript, HTML, CSS)

- Involved in development of a comprehensive admin dashboard for managing logistics data, leveraging React.js for a responsive and user-friendly interface.
- Produced multiple visual elements of web applications by translating UI/UX design wireframes into code, producing high quality markup using React.js, JavaScript, HTML5 and CSS3.
- Designed and implemented key features to streamline the tracking of truck details, cargo information, and financial data, enhancing overall operational efficiency.
- Collaborated closely with the backend team to integrate frontend components seamlessly, ensuring real-time data synchronization and optimal system performance.
- Worked closely with an agile team of multiple members and provided end-to-end solutions for the product.

GIS Analyst (April 2016 – Sep 2020)**ALK Map**

- Responsible for creating, maintaining and continuously updating the map database for leading consumer navigation including ALK Maps, CoPilot Live and CoPilot Truck GPS navigation for mobile devices.
- Generate, modify, and share web-based maps and feature layers for utilization in ArcGIS Online.
- Carrying out various processes with vector data.
- Support the GIS senior manager in the development and execution of both web-based and desktop GIS applications.
- Assisting the team in improving data management and analysis processes.

EDUCATION

Regional Center of Anna University, Tirunelveli
Bachelor of Engineering, GeoInformatics.

2015
