TECHNICAL SKILLS

Front end

- Flutter, Dart
- HTML, CSS, Javascript
- React, MUI

Back end

- Node.js, Express.js, RESTful APIs and Javascript

Database

- Mongo DB, Arango DB

DevOps

- Azure, Jira and Git

Services

- Grafana, Kibana, Elasticsearch, Logstash, Monstache and Nifi.
- MQTT

College Project

- Rule based chat bot named as **Chatty galore.**

LANGUAGE

- Tamil
- English
- Hindi

SUMMARY

Software developer with 2+ years of expertise in Flutter, Node.js, React.js, MongoDB, and ELG. Proficient in crafting and optimizing scalable, high-performance applications. Eager to contribute to a dynamic and innovative environment.

EXPERIENCE

Invypro (formerly Probseven's Betterlives)

March 2023 – Present

- Developed "INVYPRO," a supply chain management app, focusing on **multiple modules**, including the **user role** module for precise access control.
- Configured the **ELG stack from scratch**, delivering vital **inventory reports** that improved client operations.
- Crafted and **optimized MongoDB aggregation queries** to retrieve data collections, generating comprehensive reports, aligning with client business needs.
- Built optimized **Node.js REST APIs** for rapid data access and real-time inventory integration.

KGIS

July 2022 – February 2023

- Developed an **E-Patient Care Records system**, creating and designing user interfaces using React.js, HTML, CSS, MUI, and JavaScript.
- Utilized **Node.js as the server to manage backend** processes, integrating with **Apache NiFi for data processing**.
- Implemented **MQTT** for efficient data transfer from Apache NiFi to the UI and database, ensuring seamless communication across the system.

EDUCATION

2022 B.Sc - Computer Science - CGPA: 8.26

Periyar maniammai institute of science & technology

2019 HSC - 68.3%

St, Joseph matriculation higher sec school

2017 SSLC - 92.4%

St, Joseph matriculation higher sec school
