

SUJITHA M

A Undergraduate in Geoinformatic seeking career growth opportunities to apply domain knowledge and enhance skills for personal and Organizational success

EDUCATION

Bachelor of Engineering

University VOC College of Engineering,
Tuticorin

2020 - 2024

Course 84%

GeoInformatics

HSC

Mahatma Matric Hr.sec.School,
PuthiamPuthur, Tuticorin

2019 - 2020

Course 75%

Maths Computer

UG PROJECT

GIS BASED AVIAN MIGRATION MONITORING

Migratory birds play a crucial role in maintaining ecological health. Their seasonal movements between breeding and non-breeding grounds offer numerous benefits, including insect control, seed dispersal, and pollination. However, these journeys are fraught with challenges like habitat loss, climate change, and collisions with human-made structures. GIS technology plays a vital role in monitoring bird migration patterns and identifying threats along their routes. By studying migration patterns, conservation efforts can be targeted more effectively to ensure the survival of these avian ambassadors.

3/125 Middle Street,

Puthiamputhur,

Tuticorin-628402.

SKILLS

- QGIS
- ArcGIS
- Basic -Python Programming
- Basic- MySQL
- Microsoft office
- HTML, CSS

CERTIFICATES

Unmanned Aerial Vehicle (UAV) and

DGPS for Large scale Mapping

Employability Skills Development

Training Programme

Hydrological and Hydrodynamic
Modelling

INTERNSHIP

Info Maps (Sri Mangadu Kamatchi
Amman Business Corporation)
