

RESUME

P.UDAYAKUMAR

E Mail: udayathijan@gmail.com

Mobile: 99526-14685

CAREER OBJECTIVE:

To serve an organization which offers scope for self-improvement and enhancement of knowledge to strive for betterment of the organization which provides me opportunities to reach and exhibit best of my abilities to grow with the job and to enlarge my sphere of activity.

ORGANISATIONAL EXPERIENCES:

Company Name	: RMSI Pvt. Ltd., Hyderabad.
Position Held	: Assistant Technical Specialist (Software)
Period	: From Apr-2023– Feb-2024
Company Name	: Bluesky Geospatial Pvt. Ltd., Trivandrum.
Position Held	: Web Developer & GIS Analyst
Period	: From Apr-2018– Apr-2023
Company Name	: Secon Pvt. Ltd., Bangalore.
Position Held	: Geospatial Technician
Period	: From Mar-2017 – Jan-2018
Company Name	: EGIS GeoPlan Pvt Ltd., Bangalore.
Position Held	: Project Associate
Period	: From Apr-2016 – Jan-2017
Company Name	: EDR Continuous Information Pvt. Ltd., Chennai.
Position Held	: LiDAR Engineer
Period	: From Mar-2015 – Jan-2016

ACADEMIC PROFILE:

- ✓ P.G. Diploma in Spatial Tech. (GIS) with 60% in Gandhigram Rural University, Gandhigram (2012).
- ✓ BA with 55% in Gandhigram Rural University, Gandhigram (2011).
- ✓ HSC with 55% in Nation Institute of Open School, Gandhigram (2008).
- ✓ SSLC with 44% in Government Higher Secondary School, Muruganpatty (2006).

PROJECT DETAILS:

Title	PROJECT #10 ECOM Integrity GIS Technology and Application Development
Role	ECOM's Sustainability Management Services Integrity 2.0 Development of GIS functionality in existing system with ArcGIS and enhancement of field data collection app. Responsibilities: - Analyse the requirements and developing design and architecture with SRS documents. - Development of ArcGIS Web-GIS and ArcGIS Dashboards - Supporting Android app dev team for field data collection with respect to ArcGIS. Technology : ArcGIS, JavaScript, HTML, CSS, React JS, .Net core, MySQL, Azure Devops, Git Role : Application Developer Client : ECOM, Costa Rica Description : Developing web Application as per the client requirement
Title	PROJECT #9 WHP Automation Project
Role	Development of QField survey application for field survey data collection app. Responsibilities: - Analyse the requirements and developing design and architecture with WHP document. - Supporting IOS device and Android app for field data collection with respect to QGIS-QFiled. Technololgy : QGIS, QField, Autocad LT, QField Mobile App, PyQGIS Role : Application Developer Client : Virgin Media, United Kingdom Description : Developing web Application as per the client requirement
Title	PROJECT #8 Publish Orthophoto & Terrain Data (DSM/DTM) of UK in Geoserver
Role	Web GIS developing, Report preparation, Providing WMS, WMTS, WMS services, Handling Webgis services in Geoserver, and Remote sensing and GIS data analysis and Mapping. Developing web applications as per the client requirements. Role & Responsibility : WebGIS Developer Technology : JavaScript, HTML, CSS, GeoServer, OpenLayer Description : Developing web Application as per the client requirement
Title	PROJECT #7 GIS Application
Role	This process was mainly create web application using ArcGIS JS API feature layer. For that purpose display the map into the website. Role & Responsibility : WebGIS Development Technology : ArcGIS JavaScript API, JavaScript, HTML, CSS Software Used : ArcGIS Pro Description : Developing web Application as per the client requirement

Title	PROJECT #6 Georeferencing
Role	Using ArcGIS, Input of raw ortho image and placing control points with old Georeferenced ortho image. Finding location and placing point of georeferenced location to non-georeferenced image Role & Responsibility : Production & QC Software Used : ArcGIS
Title	PROJECT #5 Bluesky National Tree Mapping (NTM)
Role	Bluesky's National Tree Map (NTM) is the most detailed dataset. With coverage across the whole of England, Wales, Scotland and the Republic of Ireland. NTM provides a unique, comprehensive database of location, height extents for every single tree 3m and above in height. Creating Beautiful Waterbodies shape files, Let's remove the unwanted spike via Microstation. Role & Responsibility : Preparation, Production & QC, QA Software Used : ArcGIS, QGIS, Bently Microstation V8i, Terra Scan, Global mapper
Title	PROJECT #4 Road and Polygon features Updation
Role	As GIS Data analyst Digitized Missing Road Networks, Polygons across TamilNadu with help of Auto CAD, Using Open Sources to Update the Road Geometry. Collected and updated current road attributes changes (Road Name, Lane Information, Road types, Speed Limits, Divider Information, road restriction etc...) in field with using of Muticam, Singlecam and Contour cam Drive. Role & Responsibility : Production & QC Software Used : ArcGIS, Arc MAP, AutoCAD, GPS, Google Earth , Global Mapper
Title	PROJECT #3 Mobile Mapping
Role	This process was mainly driven by the need for highway infrastructure mapping and transportation corridor inventories. For that purpose the Digitize and classify the Transport facilities with high accuracy with its specified category and also other features like types of Roads, Building, Bridges, Tree areas and Permanent Features like Sign Board etc.,with its category as per clients need. Role & Responsibility : Preparation, Production & QC, QA Software Used : Bently Microstation V8i, Terra match, Terra scan, Terra model, Terra photo
Title	PROJECT #2 LIDAR Transmission Mapping
Role	The main Objective of the Project is to be Captured and classify the Transmission lines and Towers with its specified category and also other features like Roads, Building, Bridges, Temp Features & Permanent Features with its category and capture 2D features also as per clients need. Role & Responsibility : Preparation, Production & QC, QA Software Used : Bently Microstation V8i, Terra match, Terra scan, Terra model, Terra photo
Title	PROJECT #1 Classification Ground and advanced
Role	The main Objective of the Project is to be Restore the ground points , Separate the LiDAR point by three components: bare ground, above-ground objects, noise, and Digitize the features like Ponds, Lake, River wit. etc., with its corresponding Elevation and its Break-line, Slope lines of the area as per clients need. Role & Responsibility : Preparation, Production & QC, QA Software Used : Bently Microstation V8i, Terra match, Terra scan, Terra model, Terra photo

SKILL:

- Web Development{HTML, JavaScript, CSS}
- ArcGIS JavaScript API 4.24
- React JS
- C#
- SQL Server
- Bootstrap
- Azure Devops
- Openlayer
- Geoserver
- Git
- ArcGIS 10.8
- ArcGIS Pro
- QGIS
- ArcPad 9.2 (GPS)
- Bentley Microstation V8i
- LiDAR
- PhotoShop
- Auto Cad
- Global Mapper

CERTIFICATION COURSE:

- ✓ FrontEnd Development in Besant Technology, Chennai
- ✓ ArcGIS Map SDK for JavaScript in Y4GIS Solution, Hyderabad
- ✓ C# .Net with ArcGIS Pro in Y4GIS Solution, Hyderabad

HOBBIES AND GAMES:

- ✓ Volleyball - State Level
- ✓ Cricket
- ✓ Athletic

PERSONAL DETAILS:

Father's Name	:	Pandi.T
Year of Birth	:	1991
Sex	:	Male
Marital Status	:	Married
Nationality	:	Indian
Language	:	Tamil, Malayalam, English
Contact Address	:	Dindigul, Tamil Nadu.

DECLARATION

I do hereby declare that the information and facts stated herein above are true to the best of my knowledge and belief.

Place : Hyderabad
