DIPAWALI SHAW

GIS ANALYST

Profile

Experienced **GIS Analyst** with one year of **spatial data analysis** and map development expertise. Proficient in managing, interpreting, and visualizing geographical data to support decision-making processes. Adept at using advanced GIS tools and technologies to create detailed and accurate maps. Skilled in integrating spatial data into various management systems to enhance operational efficiency. Dedicated to delivering precise spatial analysis and innovative mapping solutions tailored to meet project-specific needs.

Experience

Geomaticx Scientific Technology Services

Jr. GIS Analyst

Sep
2023
Present

- Led GIS mapping for **TPWODL's electrical network**, focusing on **consumer indexing**, **LT and HT networks**, and **3D building digitization** using **ArcGIS**.
- Collaborated with teams to integrate GIS data into utility management systems.
- Enhanced operational efficiency and informed decision-making

July
2023
Sep

Skylan Information Technology Ltd.

GIS Executive

- 3D building footprint digitization** on **Arcgis**

Internship

Aerospatial Solution Pvt. Ltd

Advance GIS Training

Feb
2023
April

- Utilized advanced data processing tools including **Lider**, **Drone**, **ArcGIS Pro**, **Google Earth Engine**, and **DBMS** to enhance spatial analysis and mapping accuracy.
- Integrated these technologies to streamline data management, improve decision-making, and support comprehensive geospatial solutions.

Projects

Dissertation: Man-Animal Conflict in the Forest Fringe Villages of Sundarban Biosphere Reserve- A Spatio-Temporal Analysis

2022
-
2023

- Assess **mangrove vegetation health**, **land use changes**, and **forest fragmentation trends**, identifying illegal activities.
- Investigate causes, types, and prevention strategies for **man-animal conflict**, including its **financial**, **psychological**, and **socioeconomic** impacts on affected individuals and families.
- Identify the study area's geographical markers related to humans, mangroves, and animals.
