WORK EXPERIENCE

Internship

GTEK Techno Solutions

09/2023 - 03/2024

Chennai

Achievements/Tasks

- As an **Intern** at **GTEK Techno Solutions**, I likely had the opportunity to gain practical experience and learn about various aspects of software development.
- Learning and Skill Development** : Engaging in training sessions to enhance my knowledge of programming languages, frameworks, and tools. Acquiring hands-on experience through practical assignments and projects.
- Collaboration with Senior Developers** : Working closely with experienced developers to understand real-world software development scenarios.

PROJECTS

Jolly Trips

- Create a **CRUD (Create, Read, Update, Delete)** web application using Spring Boot. This project involves building a system that allows users to perform basic operations on data, such as creating, reading, updating, and deleting records.

Students Result Management System

- A comprehensive web-based application designed to streamline and automate the process of managing student results.

Gym Management System

- Gym Management System is a comprehensive **Java Swing application** designed for gym owners to streamline their fitness centers' operations.

CERTIFICATES

Java Certification

I am a **certified Java developer** with a credential from **Inspireotech**. This certification validates my skills and knowledge in Java development.

SQL Certificate

I have successfully completed the **Inspireotech SQL certification** program.
