

YARRAMSETTY BALAJI

 Bengaluru, India  9676631656  yerramsettibalaji@gmail.com

PROFESSIONAL SUMMARY

Motivated and result-oriented GIS Consultant with 7+ years of experience in Database Management, Analytics, and Quantitative Research Techniques. I am keen to work on challenging opportunities to exude skills & abilities while constantly learning new ones. Open to accepting new opportunities to learn and grow both personally & professionally.

WORK HISTORY

GIS CONSULTANT

10/2021 to 10/2024

NATIONAL TECHNICAL RESEARCH ORGANISATION (NTRO) | BANGALORE

- Administered and optimized ESRI products and SQL Server databases (oracle and PostgreSQL), contributing to enhanced geospatial data management and analysis.
- Performed statistical analysis and developed models using Python libraries to support data-driven decision-making.
- Reduced processing time significantly by optimizing spatial database performance through indexing techniques.
- Developed, maintained, and administered offline Open Street Map (OSM) services for improved geospatial data accessibility and reliability.
- Streamlined workflows by automating repetitive tasks using Python scripting techniques.
- Experience in working with ASP .NET MVC using C#.

PROJECT SCIENTIST

03/2019 to 09/2021

NRSC | HYDERABAD

- Maintained and handled the MGNREGA database received from Bhuvan using PostgreSQL, resulting in a 20% improvement in data quality & performance.
- Employed geospatial technologies to model and monitor assets created under MGNREGA, enhancing resource management and oversight.
- Applied text mining and big data querying techniques for quality data assessment, enhancing data reliability and usability.
- Performed statistical analysis and developed R programming models to support data-driven decision-making.
- Created rule sets to prepare GIS-based plans for rural development activities, improving planning accuracy and project outcomes.
- Contributed to Yuktdhara portal by preparing necessary inputs, supporting its launch on August 23, 2021, by the Ministry of Rural Development.

TEST ENGINEER

02/2017 to 02/2019

INFOSYS | HYDERABAD

- Designed and implemented test scripts and use cases with Selenium/TOSCA for automated testing of scenarios, improving software quality assurance processes.
- Identified test scenarios and created test plans.
- Provided client support and demo, and gathered requirements.

SKILLS

- GIS Analysis
- Geospatial Data Integration
- Geoprocessing Automation
- Geospatial data quality control
- Spatial Data Management
- Python Programming
- Google Earth Engine
- ArcGIS Products
- ERDAS IMAGINE
- PostgreSQL
- PostGIS
- QGIS
- ENVI
- C#

EDUCATION

Master of Technology | RS&GIS

07/2016

NIT WARANGAL, Warangal, India

Bachelor of Technology | Civil Engineering

06/2012

RVR&JC College of Engineering, Guntur, India
