SUMMARY

Remote Sensing and GIS specialist with 8 years of experience in government projects, focused on hydrology, software development, and computational modeling. Expertise spans business processes, image analysis, and unmanned aircraft systems. Certified Remote Pilot with skills in international project management, technical training, and developing geomatics algorithms and web-based applications.

SKILLS

- Spatial Data Management
- Stakeholder Management
- Product Management
- Quality Assurance
- Business Planning
- Gap analysis
- Key Performance Indicators Tracking
- Business Requirement Gathering
- Technical Writing
- Project Management
- Flight planning
- Data Analysis
- Data Assimilation
- Geographic information system
- GIS software
- QGIS
- ArcGIS Pro
- Python
- Java
- CSS
- HTML
- SQL
- Angular 2

EXPERIENCE

BUSINESS ANALYST - GIS, 05/2023 - 07/2024

Vassar Labs IT Solutions Pvt Ltd, Hyderabad, India

- Designed and implemented a WebGIS and MIS-based operational dashboard for the Department of Water Resources, Kyrgyzstan, and the Tamil Nadu Water Resources Department
- Identified gaps between current state and desired future state operations, thereby reducing complexity by 50%
- Synthesized input from 10+ focus sessions into structured documentation, highlighting stakeholder concerns and paving way for targeted improvements on existing systems
- Monitored project timelines and budgets by tracking milestones, deliverables, and tasks, thereby completing 95% of the work

SUBJECT MATTER EXPERT - GIS & REMOTE SENSING, 11/2022 - 04/2023

Vassar Labs IT Solutions Pvt Ltd, Hyderabad, India

- Supervised implementation of TNWRIMS to improve workflows and reduce turnaround times by 70%
- Drafted technical documents, such as staging and production go-live reports and ensured 100% accuracy of content
- Constructed intricate process flows and in-depth user narratives to capture essential system specifications which led to a seamless design phase, ensuring zero delays during implementation on 1 critical project

SENIOR RESEARCH FELLOW, 02/2020 - 11/2022

National Remote Sensing Centre (NRSC) - ISRO, Hyderabad, India

- Automated geospatial data processing tasks with Python, reducing manual effort by 10 hours per week, allowing the team to focus on strategic initiatives
- Executed comprehensive evaluations of soil moisture estimates utilizing satellite derived products (SMAP) alongside model outputs (VIC), achieving a correlation rate of 70%
- Developed a fully functional, web-enabled hydrologic modeling system that processed geospatial data, reducing model runtime by over 40%
- Conducted in-depth analysis of stream drop data to establish geomorphological threshold parameters through Digital Elevation Models (DEM), ensuring accurate modeling across 8 key watersheds

JUNIOR RESEARCH FELLOW, 02/2018 - 02/2020

National Remote Sensing Centre (NRSC- ISRO), Hyderabad, India

- Assimilated and processed over 7 data points related to land use and soil characteristics, enhancing the accuracy of geospatial models used for hydrological analysis
- Generated model-calibrated geospatial products for hydrological fluxes in near real-time, enhancing processing speed by 35%
- Conducted comprehensive analysis of discharge into Pulicat Lake using the SWAT model for both virgin and abstracted conditions, achieving an accuracy rate of 85% that informed subsequent water management strategies
- Implemented advanced image processing algorithms on high-resolution Landsat datasets; estimated surface water extent with an error margin of under 10% while generating comprehensive reports for stakeholder review

SOFTWARE ENGINEER, 08/2016 - 02/2018

Capgemini Technology Services India Ltd, Hyderabad, India

- Developed and deployed responsive web applications using Java, Angular 2, Bootstrap, and HTML

INTERN, 05/2015 - 06/2015

National Centre for Polar and Ocean Research (NCPOR), Goa, India

- Extracted supraglacier geo-information using advanced object-based image analysis techniques with overall accuracy of 92%

Master of Technology: Remote Sensing and GIS

CGPA - 9.5

Sethu Institute of Technology, 04/2014

Bachelor of Engineering: Electronics and Communication

CGPA - 8.3

CERTIFICATIONS

- Oracle Certified Associate, Java SE 7 Programmer, 12/2016
- Remote Pilot Certificate for Small and Medium UAS - PC0824000092C, 08/2024
