ACADEMIC QUALIFICATIONS

Year	Degree/Certificate	Institute	CPI/%
2024 - Present	B. Tech	Jaypee Institute of Information Technology, Noida	8.6/10
2024	CBSE (XII)	Khaitan Public School, Sahibabad	94.8%
2022	CBSE (X)	Khaitan Public School, Sahibabad	98.8%

KEY PROJECTS

KrishiNect – Smart Multilingual Agriculture Web Platform |

- Developed a multilingual AgriTech platform enabling crop listing, mandi price analytics, farmer connectivity, and direct buyer-seller interactions.
- Built dynamic marketplace and dashboard modules using **JavaScript**, **JSON-based data** management, and responsive web design.
- Implemented real-time market intelligence and state-wise agricultural insights through structured data visualization.
- Designed the platform architecture to support future **GIS-based crop mapping** and location-aware agricultural insights.

PulseCity – Civic Issue Reporting Platform (Ongoing)

- Building a civic-tech platform using **React** frontend and **Flask** backend integration
- Designing a smart routing system using **keyword-based classification** (ML logic) and priority scoring algorithms
- Implementing a reward-based system using user activity tracking and state management
- Integrated geolocation-based issue reporting and location-aware civic issue routing workflows.

TalentSync AI – Resume Screening & Skill Gap Analysis Platform

- Built a recruitment platform using **Python**, **NLP**, and **machine learning**
- Implemented resume parsing, **semantic skill extraction**, **TF IDF/embedding-based matching**, ATS scoring, and candidate ranking
- Performed data preprocessing, feature engineering, skill normalization, and synthetic dataset generation
- Developed skill-gap analysis, explainable scoring, analytics dashboards, and modular ML pipelines
- Working on advanced features including **LLM-powered feedback**, RAG pipelines, multilingual support, and recruiter analytics

Meeting Insights AI – AI Meeting Summarizer & Follow Up Automation Agent (Ongoing)

- Built an AI-powered meeting assistant using **Python**, **NLP**, **LLMs**, and automation workflows
- Implemented meeting transcription analysis, context-aware summarisation, action item extraction, and smart follow-up generation
- Developed features for **semantic memory**, searchable meeting insights, and **automated productivity workflows**
- Working on advanced integrations, including calendar sync, email automation, vector search, and team collaboration analytics.

TECHNICAL SKILLS

- Programming Languages:** Python, C++, Java
- Web Technologies:** HTML, CSS, JavaScript, React
- Backend:** Flask, Node.js
- Databases:** MySQL, MongoDB
- Tools:** Git, GitHub, VS Code, Figma

POSITIONS OF RESPONSIBILITY

Technical Volunteer, AI/ML Hub, IIIT

(Aug'25 - present)

- Spearheaded four tech workshops and two hackathons, boosting club participation by 35%.
- Directed a six-member team to deliver an AI/ML awareness series, engaging over 200 students.

ACHIEVEMENTS AND CERTIFICATIONS

- Secured 2nd place** in All Girls Track at HackArena
- Ranked among **Top 35 teams out of 1000+** in Code for Bharat hackathon
- Ranked among **Top 82 teams** in Innovate 3.0 hackathon
- Completed **Deloitte Virtual Internship** in Data Analytics
- Completed **Agentic AI course** under Microsoft Learn Student Ambassador Program
